

**Subject:** Scam - Please pass on

We have a report that someone in the Carbon County area has been calling seniors to solicit donations in the name of APS. Most of the calls appear to revolve around the Carbon County area. We are trying to get an associated phone number to see if we can track down where the calls are coming from. The pitch they are using is that APS does not have a worker for this area and the funds would be used to add a staff. A worker at the Fromberg senior Center notified Montana Aging Services about the calls because she knew APS served that area.

APS is looking into it and will let us know if they figure anything out. But wanted to get the word out to the aging network to pass on.

Thanks
